

CoCreating a New Reality

An Experiential Workshop with the Crop Circles

Embracing the Mystery

In the early 1990's I found myself one evening watching a slide show presentation on a phenomenon called the 'crop circles'. I was amazed and a bit skeptical. Could this really be happening? Why? Who? How? I think my response at the time was pretty typical.

Today, almost 20 years later, the 'crop circles' speak to me on a completely different level. My mind can still throw up the same tired questions, but the part of me that 'knows' the mystery beyond this limited reality opens completely to their presence and is delighted. Why NOT!

It's time to take a closer look.

You are invited to join me on a very magical journey to: connect through direct experience into a greater reality; deconstruct inner limitations to live as that greater reality; embody it—heart and soul AND have a great adventure over seven days in the Avebury/Stonehenge area of England.
